The carrying amount of the various financial assets and liabilities are considered to be the same as their fair values. Under previous GAAP financial assets and liabilities are to be recorded at their transaction value. Ind AS requires all financial assets and liabilities are to be carried at their fair value. Money & Deposits shown under Financial Liabilities / Financial Assets have not been discounted as expected payment / receipt date is not available.

For financial reporting purpose, fair value measurement are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

Risk Management

1. The company manages its capital to ensure that it will be able to continue as going concern while the maximising the return to stakeholders through the optimisation of the debt and equity balances.
2. Power is highly regulated sector. This expose the company to the risks with respect to changes in policies and regulations.
3. The Company's operation are governed by the provisions of Electricity Act 2003 and regulations framed thereunder by the Tripura Electricity Regulatory Commission (TERC). Tarriff Orders issued by the TERC have bearing on the liquidity, earnings, expenditure and profitability of the company.
4. The company's outstandings are generally collected on a consistent basis without any delay or default. Therefore, the credit risk of the company in respect of sales collection is minimal.
5. Profit or loss is sensitive to higher / lower interest expense from borrowings as a result of change in interest rates. As the interest are recoverable from beneficiaries through tariff there is no impact on profit and loss account.
6. While selecting banks for parking deposit, Company considers factors such as track record, size of the bank, reputation and service standards. Generally the balances and deposits are maintained with banks with which the company has also availed borrowings. Surplus funds are invested in Fixed Deposits.
7. Company relies on a mix of borrowings and operating cash flows to meet its need of funds
